NORTHWEST NEW MEXICO COUNCIL OF GOVERNMENTS

MINUTES

BOARD OF DIRECTORS SUMMER REGULAR BUSINESS MEETING August 2, 2023

at the San Juan College - School of Energy
Second Floor
25301 College Boulevard *** Farmington, NM

I. PRELIMINARY BUSINESS

A. CALL TO ORDER/INTRODUCTIONS/QUORUM.

Chairwomen *Martha Garcia* [Cibola County] convened the meeting of the Board of Directors at 10:00 am. Roll call proceeded in the form of introductions around the table. In attendance were 12 Board Representatives, representing a quorum of 7 of the 9 voting entities of the Board (77.8%), along with all 7 COG staff. Evan Williams provided a welcome to the Board.

BOARD MEMBERS IN ATTENDANCE:

CIBOLA COUNTY: Martha Garcia, Judy Horacek McKinley County: Danielle Notah, Walt Eddy

SAN JUAN COUNTY: GloJean Todacheene, Gary McDaniel, Terri Fortner

CITY OF AZTEC: Michael Padilla, Jeff Blackburn (alternate)

CITY OF BLOOMFIELD: Donna Sharpe (excused)

CITY OF FARMINGTON: Linda Rodgers, Julie Baird (alternate); Warren Unsicker

(alternate)

CITY OF GALLUP Louie Bonaguidi (Treasurer) Michael Schaaf, Jon DeYoung

(alternate)

CITY OF GRANTS: Erik Garcia; Fred Rodarte, (both excused)

VILLAGE OF MILAN: James Mercer BOARD EMERITUS: Jeff Kiely

GUESTS IN ATTENDANCE:

Armando Sanchez (SJT Group), Trisha Korbas & Rachael Gleason (EDA), Arthur Allison (State Representative)

STAFF IN ATTENDANCE:

EXECUTIVE DIRECTOR: Evan Williams
OFFICE MANAGER: Martina Whitmore

STAFF: Brandon Howe; Angelina Grey; Michael Sage; Bob Kuipers;

Carrie House

B. AGENDA & MINUTES ADOPTION.

Director Williams provided an overview of the day's agenda topics and the minutes from previous meeting.

ACTION: Michael Padilla (Aztec) moved and Michael Schaaf (Grants) seconded adoption of

the agenda and minutes from April 18, 2023. Motion carried.

C. <u>ELECTION OF OFFICERS.</u>

Director Williams explained that in accordance to the bylaws the COG holds election of officers in even years, but due to the fact that Fran Palochak (2nd Vice Chair) did formally resign her post of the Northwest New Mexico Council of Governments (COG) Board of Directors and thus staff is seeking a replacement. One reason is to have someone in the region that can sign checks if the Treasurer is not available.

A slate of nominations were put forward including:

Michael Schaaf (Gallup) nominating Walt Eddy (McKinley County) but this nomination was declined and a second nomination by GloJean Todacheene (San Juan County) for Danielle Notah (McKinley County) that was accepted.

Action: A vote to approve Danielle Notah as the COG's new 2nd Vice-Chair was held and approved by acclamation.

The current slate of Officers is now:

Martha Garcia (Cibola County)	Chair
Michael Padilla Sr. (Aztec)	1 st Vice-Chair
Danielle Notah (McKinley County)	2 nd Vice-Chair
Louie Bonaguidi (City of Gallup)	Treasurer
Billy Moore (McKinley County)	Immediate Past Chair

II. SPECIAL PRESENTATIONS

The COG arranged for one presentation under this section from:

Rachael Gleason, Civil Engineer, Economic Development Representative, US Economic Development Administration Austin Region serves the State of New Mexico and other States and is responsible for supporting construction grant implementation and engineering oversight. She provide a quick overview of her role, responsibilities, and provided an update on construction projects in the region including San Juan Industrial Park, Gallup Water System Improvements, and Navajo Technical University. Her contact information is:

Rachael Gleason

Civil Engineer
U.S. Department of Commerce
Economic Development Administration
Austin Regional Office – Austin, Texas

Phone: 512-621-9557 Email: <u>rgleason@eda.gov</u>

III. EXECUTIVE/STAFF REPORT

Director Williams and Planning Director Brandon Howe provided a summary of the past quarter's key activities and issues.

- A. **STAFF SUMMARY REPORT.** Mr. Williams did provide this report to the Board for their review and understanding of accomplishments this quarter.
- B. ANNUAL REPORT. Mr. Williams presented an abridged version of the annual report that will

The main highlights he spotlighted are:

- National Awards (3)
- Return on Investment
- COG Reorganization and Staff
- C. ANNUAL MEETING PREVIEW. Mr. Williams provide an annual meeting preview including that the keynote speaker would be Dennis Alvord, Deputy Assistant Secretary of Department of Commerce. COG staff provide Deputy Alvord a tour of the region the prior to showcase economic engines of the region and the work the COG has helped lead in relation to Assistance to Coal Communities and other strategic US Economic Development Administration (EDA) investments. Attached is the program for the event.
- D. <u>ICIP RATIFICATION</u>. The COG is responsible to complete an Infrastructure Capital Improvement Plan (ICIP) to set five-year priorities for investments in infrastructure. The COG's ICIP has two priorities: building upgrades and a new vehicle. Since the deadline was prior to this meeting, the COG submitted but does need the Board to ratify the resolution.

"OUR REGION, YOUR COG"

<u>ACTION:</u> Danielle Notah (McKinley County) moved and GloJean Todacheene (San Juan County) seconded, to ratify the resolution and the COG's ICIP. <u>Motion carried</u>.

IV. FINANCIAL REPORT

A. **FY2023 Financial Reports, Quarter 4 & Year End**: Mr. Armando Sanchez provided a review of the organization's financials.

<u>ACTION:</u> Louie Bonaguidi (Gallup) moved and Michael Padilla (Aztec) seconded, to approve the financial reports as presented. <u>Motion carried</u>

B. **FY2024 Budget Final**. Mr. Evan Williams provided a review of the organization's budget and changes to the FY2024 final budget that were needed including direction from the Board on compensation.

<u>ACTION:</u> GloJean Todacheene (San Juan) moved and Michael Schaaf (Gallup), seconded, to approve the final budget as presented. <u>Motion carried</u>

C. <u>Wage & Salary Classification Plan</u>. Mr. Evan Williams provided a review of the organization's wage & salary classification plan.

<u>ACTION:</u> Louie Bonaguidi (Gallup) moved and and Linda Rodgers (Farmington) seconded, to approve the wage & salary classification plan as presented. <u>Motion carried</u>

D. <u>Billing Rate Schedule</u>. Mr. Evan Williams provided a review of the organization's billing rate schedule that made some significant increases to billing rates to conform with Board's

direction on compensation.

<u>ACTION:</u> *Michael Schaaf* (Gallup) moved and *Danielle Notah* (McKinley) seconded, to approve the new billing rate schedule as presented. <u>Motion carried</u>

V. ANNOUNCEMENTS; OTHER BUSINESS

- A. <u>FY2024 Board Meeting Calendar</u>. This calendar was set and distributed, including the next meeting of October 18, 2023 in the Cibola area. Staff will organize a location, possibly at the Village of Milan's new village hall.
- B. <u>Announcements</u>. There were several announcements about upcoming events including fairs and rodeos. State Representative Allison did ask to address the Board and he are some of points he relayed in his statements that centered around Federal support and attention in the Four Corners and inclusive representation:
 - San Juan Freight Rail Line Project Federal investment needed.
 - Navajo Codetalker Museum Federal investment needed.
 - COG Board Representation including Shiprock area and increased Navajo involvement.

VI. ADJOURNMENT

Respectfully submitted,

ACTION: Michael Padilla (Aztec) moved and Michael Schaaf (Gallup), to adjourn. Motion carried. Chairwoman Garcia again thanked the San Juan College and the School of Energy for their tremendous facility and hospitality for this meeting and adjourned the meeting of the Board of Directors at 11:35 AM.

Evan J. Williams	
Board Secretary and Executive Director	

Message from Chairwoman

Crants

Martha Garcia

Dear Friends and Neighbors,

First, I wish to take this opportunity to thank all Board members that volunteer their time and expertise, and that have bestowed me the honor of serving as your Chairwoman. I am following a long line of prestigious Chairs that includes Commissioner Billy Moore of Thoreau, Mayor Dr. Bill Hall of Farmington, and Mayor Warren Mathers of Milan. I am proud to have accepted this position as I believe my experience in almost every level of government will serve the organization well, and I know that our dedicated and experienced staff will help us to continue our 50 years of performance and service to the region.

Second, it is my pleasure to present this FY2023 Annual Report for the Northwest New Mexico Council of Governments (COG). The last year embodies a very significant period of stability and growth for our organization, and I believe this report serves to provide the broader regional community with a small glimpse into the big picture of COG's work.

All COG members and partners should be proud of the many challenges we have met head-on and for which we have successfully found solutions and new opportunities. Not only in this past period and through a global pandemic, but over the last five decades, we have faced issues that needed our attention and COG has been the vehicle to get us through them together. Local communities in our region are more capable of meeting challenges due to the work that has been done and is currently being done by this organization and its members.

Next, I wanted to thank Deputy Assistant Secretary Dennis Alvord, for the US Department of Commerce's Economic Development Administration (EDA), for coming to our region to see and hear firsthand how our region is focused on diversification to transform our regional economy from boom-bust to robust and building an equitable economy built on innovative and sustainable industries that provide quality jobs for people where they are rooted. We recognize EDA as a frontline partner that has committed to sustained investment in its assistance to our coal communities. Lastly, I wanted to express my deepest gratitude to our "Regional Champions", who embody the regional spirit of collaboration and have provided leadership of distinction. Special thanks to Mayor Michael Padilla (Aztec), Manager Maryann Ustick (Gallup), and State Representative Harry Garcia, for their regional leadership, dedication, and ethic of service to our region and its communities.

Enjoy the Annual Report and our Annual Luncheon! I encourage all of you to give us feedback you may have as part of continuous improvement and to join me in letting our COG staff know that they are appreciated and seen in the work that they do for our region and its communities.

- Martha Garcia, Chairwoman of the Board

Message from Executive Director

Evan Williams

I am honored to present you our Annual Report for the Northwest New Mexico Council of Governments (COG). In this report, you will get a sense of our region and your COG's highlights and accomplishments.

First, none of this work gets done without our members and the generous contributions that they provide to allow us the ability to do the work we love and that allows us to leverage additional funds and attract other partners. I appreciate our members and our Board for their support of our staff and their increasing commitment to show that support. You cannot make Stone Soup without first having the kettle and the stone.

Second, I want to express my gratitude to the seasoned COG staff. They continue to show up, accept the challenge, and achieve results for the region. All the staff continue to advance in their careers and have been elevated to manage their own offices across the main concentrations of our work including transportation, economic development, water and environment, and innovation. One of our major goals set and nearly accomplished by the staff was to attract \$75 million in investments into infrastructure, facilities, and strategic projects in our region. I look forward to seeing what

this team can do and appreciate having my team as there is none better. The person who says it cannot be done should not interrupt the COGster doing it.

Next, we are bringing home some hardware and getting some national recognition for our work in the field including:

- Star of the Southwest Award | Prewitt Industrial Park Master Plan | Southwest Region Economic Development Association (SWREDA)
- Aliceann Wohlbruck Impact Award | Water Planning
 Regional Collaboration | National Association of
 Development Organizations (NADO)

Lastly, I wanted to extend my congratulations to our Regional Champions who have paved the way to make our work possible and for all those that actively support the COG and help us grow as an organization to expand our contribution to the region.

Enjoy the Annual Report and let us know if you see something that you are interested in and how we can help your community achieve its vision for the future.

- Evan Williams, Executive Director

SAN JUAN CHAMPION Navejo

Michael Padilla, Sr. San Juan County Champion

- Mayor, City of Aztec (1992 1998)
- Mayor, City of Aztec (2020 2024)
- Former Member, Aztec School Board
- Vice-Chair, COG Board Member

Mayor Michael Padilla has answered the call to service many times during his life both for his country and his community.

Having served as a member of the United States Marine Corps in the Vietnam War, Mayor Padilla has a level of respect for those who have served. He has a personal connection and an understanding for those who have served and have returned.

In a blog by Senator Martina Heinrich, he took time to recognize Mayor Padilla by saying:

"During my visit, I was also proud to present a flag flown over the United States Capitol to former Aztec mayor and decorated Marine Corps Vietnam veteran Mike Padilla. Mike has long been a champion for veterans in San Juan County. Last fall, Mike helped me present a Vietnam veteran with his Bronze Star Medal and recognize another veteran for this more recent service in Afghanistan."

He is not bashful in letting you know what he thinks, which means you always know where he stands. He has a passion for the City of Aztec and that comes with a sense of urgency to get things done. Some of the issues that caused many residents to ask him to return to elected office were big projects that needed to get done from drought and water storage to public works and road improvements to downtown vibrancy and economic development. He has helped to move things forward and keep focused on those projects that are paramount for the community.

He has a big heart for the City of Aztec and making sure it keeps its identity and small-town spirit, while dealing with the changing world and economy. He understands how to make sure Aztec builds on what makes it special and not try to be something it is not. The City of Aztec continues to make lists for being a great place to live, work, play, and visit.

We appreciate him for stepping up and stepping onto the COG Board of Directors and helping us understand what the true needs are of the City of Aztec, San Juan County, and the greater Four Corners region.

MCKINLEY CHAMPION

Maryann Ustick McKinley County Champion

- City Manager
- Board Member of the COG
- Founding Member of the Gallup Executive Directors' Alliance
- Wife | Mother | Grandmother
- Animal Lover

Maryann Ustick is the quintessential professional City Manger representing the standard of knowledge, quality, and class.

Maryann Ustick was born in South Orange, NJ. When she was younger, she wanted to go into the medical profession which would have led her to a place and position that would have helped people, but thankfully she found her way and dedicated her life to public service. Maryann was born to Irish and Lithuanian parents and was an Airforce brat. Her family was always willing to move someplace new so they could have an impact on a new community and Maryann kept that mentality throughout her career.

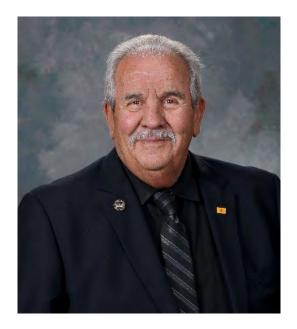

Maryann began her public service in Virginia Beach, VA as a state inspector and then moved into a position with the city working on community development. She then moved and worked in the following cities including Phoenix, AZ; Pensacola, FL; Las Cruces, NM; North Las Vegas, NV; and Destin FL. Her final stop was to serve as the City Manager at the City of Gallup, NM where she served for 9 years. Maryann has always been a true career city manager as serving for numerous cities across the United States.

Maryann has led and been part of many organizations throughout her career. She served 40+ years as part of the International City Managers Association. She has served on many committees and boards and has done so much to support others and especially women in their careers. She has won local government awards as well as women in government awards. Maryann received a degree in history and went on to get her masters in public administration from Old Dominion.

Her last City Council was the perfect capstone on her career with the City of Gallup covering issues from legislative reports to our nightly Indigenous Dance program to behavioral health to Interstate 40 and other critical transportation projects to cannabis tax use to abortion. Maryann could explain the details on any topic and any issue facing the City and provide recommendations for policy officials that could be trusted.

Maryann served on the COG Board and was a mentor and trusted advisor on organization management. She put a lot of faith in the COG team and allowed us to get our first chance to complete a creative placemaking project – Coal Avenue Commons. We appreciate the work, the professional knowledge, and your dedication to finish projects big and small for the greater good of the region, the City of Gallup, and all the cities you blessed with your service.

CIBOLA CHAMPION ElMalpals

Harry Garcia
Cibola County Champion

- State Representative
- Vice-Chair, House Transportation, Public Works, & Capital Improvement
- Member, House Appropriations & Finance Committee
- Member, Legislative Finance Committee
- Chair, Military & Veterans' Affairs Committee

Since 2016, State Representative Harry Garcia has served District 69 with distinction. District 69 is one of the largest districts by land mass in the State of New Mexico. This district includes the counties of Bernalillo, Cibola, McKinley, San Juan, Socorro, and Valencia counties making Representative Garcia a true regional champion for the entire Northwest New Mexico region.

Having served as a member of the United States Marine Corps in the Vietnam War, Representative Garcia is a staunch advocate for veterans. He makes it clear that we need to honor our veterans who sacrificed and endured for the freedom we enjoy today and that veterans need to receive the services and benefits that they earned. He has

sponsored many pieces of legislation to support our veterans and he has continued to advocate for the Department of Veterans Services and making sure we have Veterans Service Officers throughout the State and serving rural areas.

As a long-time business owner, Representative Garcia knows firsthand what it takes to have to hustle every day to make a living and provide jobs to help families make ends meet. Being a resident of Grants, Harry has seen and knows to well the boom-bust nature of our economy and the effect it has on the area. He actively works to promote economic development and assist our energy communities in their efforts to diversify their economies. He has supported funding for economic development programs and projects throughout his District and throughout the State of New Mexico.

Jackson Gibson was asked about Harry when he was nominated to succeed W. Ken Martinez in serving District 69. Mr. Gibson simply put it that "Harry was solid. If he tells you he will do something, he does." This is how I got to know Representative Garcia and he is never afraid to go into communities that are having issues and hear them out. He is always willing to show up. He is the type of leader that when there is a crisis or a global pandemic, he shows up with supplies and a water truck.

PARTNER CHAMPION

Lancing AdamsAgency Partner Champion

- Tourism Development Director
- Oversees the Tourism Infrastructure Program
- Participates in various Funding Review Committees
- Developed the Destination Forward Program
- A NM True Ambassador

Lancing Adams has served with distinction in his various roles and assignments within the State government, where he currently serves as the Tourism Development Director promoting our State and building the foundation for catalytic tourism infrastructure.

In his role, Lancing has forged a partnership with the Council of Governments to support tourism infrastructure projects, funding, and a dashboard to catalyze and build our portfolio of sight-doing opportunities. He has helped advocate and support capital outlay and funding close to \$30M for the following catalytic projects over the past few years.

He has always been an active listener, a problemsolver, a process insider, and an action-oriented person who keeps the community at heart. Once Lancing determines the course needed and navigates to yes with the powers that be, he tells you what he is going to do and by when – and he delivers. He had the idea of developing a program that would help communities build tourism infrastructure, assets, and amenities to help them deliver on their brand promises and now he has grown that idea into a \$3M program called Destination Forward.

Lancing has served in various roles both public and private as he built his career. He is a lobo (do not hold that against him) receiving his Bachelor of Arts in Political Science and Government as well as his Master of Public Administration. He has worked in local government assisting with special projects under Mayor Richard Berry, in the City of Albuquerque. He worked in State government at New Mexico Tourism Department; Children, Youth, and Families Department; and in the Office of the Governor as the Cabinet Director in the Susana Martinez administration. He ventured into the private sector where his work focused on luxury home design-building and real estate, but eventually he found his way home to New Mexico and back to the Tourism Department.

Lancing knows our region firsthand from our key destinations to our tourism infrastructure to being engulfed in the Connie Mack World Series and the Gallup Inter-tribal Indian Ceremonial.

The COG is happy to bestow this honor to Lancing Adams and we look to our continued work with him and joint service to our citizens and communities.

NATIONAL RECOGNITION

2015

2019

2020

2021

2002 Adventure
Gallup &
Beyond

In partnership with the NWNMCOG, Adventure Gallup & Beyond, was awarded the "Pioneer Award" by the National Association of Development Organizations. The award recognized the innovative the AGB concept as a regional outdoor recreation organization that has supported development in the greater Gallup area.

The Ristra
Project
NWCEDS

The New Mexico Association of Regional Councils (NewMARC), which includes the COG, set out on a mission to reformulate how economic and community development is conducted in the State of New Mexico. The result of collective efforts was the development of The Ristra Project.

Zuni Mountains Trails Projects A multi-agency effort between the U.S. Forest Service, McKinley and Cibola counties, and the COG has resulted in planning, designating, and designing hundreds of miles of trails within the Zuni Mountains. This collaborative effort has been recognized by NADO for its innovative approach to trail development.

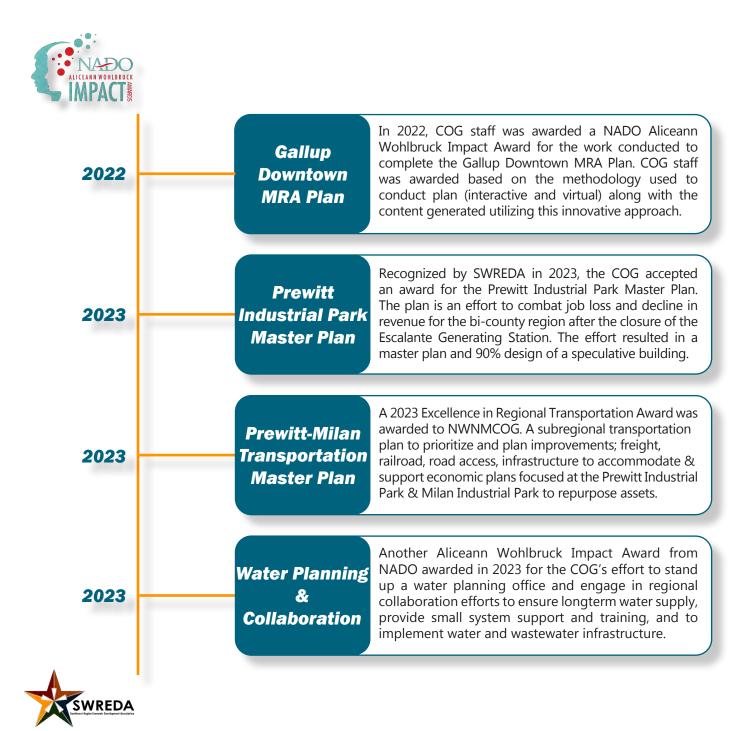

Prewitt Industrial Park In response to recent closures of economic base employers Tri-State Escalante Generating Station (Prewitt, NM) and the Marathon Refinery (Gallup, NM), McKinley County in partnership with the COG initiated a master plan of the Prewitt Industrial Park to combat economic woes of the Northwest region.

Trail of the Ancients Scenic Byway The COG through its Regional Transportation Planning Organization was successful in designating the Trail of the ancients Byway (NM) as a National Scenic Byway. The designated Trail of the Ancients Scenic Byway will support tourism efforts and transportation endeavors to improve regional assets.

NATIONAL RECOGNITION

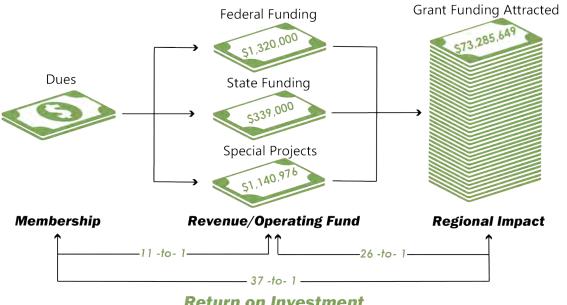

FY2023 RETURN ON INVESTMENT

371

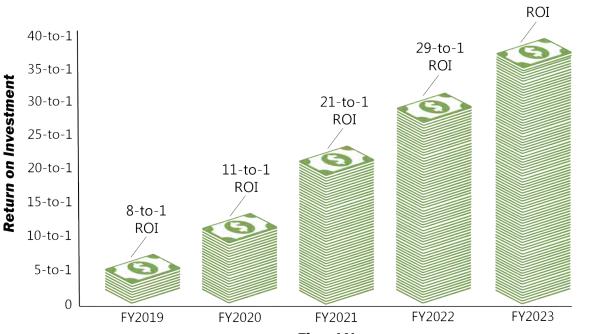

37-to-1

Since taking over the helm as Executive Director, Mr. Williams has worked with his staff to conduct annual return on investment reports to member governments who financially contribute to the COG. These reports include highlights of accomplishments and a monetary return on

investment recap. At the end of the year, each member government's return on investment is incorporated into a regional recap to help the COG showcase our value to the region. Below is our Fiscal Year 2023 return on investment and our progression since FY2019.

Return on Investment FY2023

Return on Investment FY19 - FY23

In FY2023, the Council of Governments established an internal structure to allow for the creation of individual offices manned by existing staff, based on the expertise and passion of each planner. This organizational model has been explored numerous times over the past decade and in FY2023, Executive

Director Evan Williams felt like the COG was ready for change. The formation of each office will not only ensure continued service but will provide the opportunity for growth and innovation. Each office will play an integral role under the umbrella that is the Northwest New Mexico Council of Governments.

The following offices were created in FY2023 to support and expand the COG menu of services:

Water Planning Office

Staffed by: Angelina Grey

- Stewards of regional water planning
- Small water system assistance & collaboration
- Drought contingency planning & conservation
- Project implementation & financing

Special Projects Office

Staffed by: Carrie House

- Data & mapping repository
- Trail Planning & design
- Multimedia support
- Project implementation & financing

Economic Development Office

Staffed by: Michael Sage

- Driving the region's economic strategy
- Moving form boom-bust to robust
- Creating jobs where people are rooted
- Accountable for regional impact

Transportation Office

Staffed by: Robert Kuipers

- Stewards of regional transportation planning
- Encouraging safe streets for all
- Ensuring increased mobility & accessibility
- Project implementation & financing

Data Dashboard

The COG is working rigorously to provide existing US Census data in an interactive mapping dashboard. Utilizing ESRI's ArcGIS Dashboard enables users to view geographic information, data to monitor events of Census, American Community Survey, pertinent data, see trends, and make decisions. Geoprocessing and other methods are necessary to provide a user-friendly environment of our northwest region of New Mexico, our COG. The dashboard is like web maps with charts, gauges, lists, tables, and indicators.

Special Projects Office

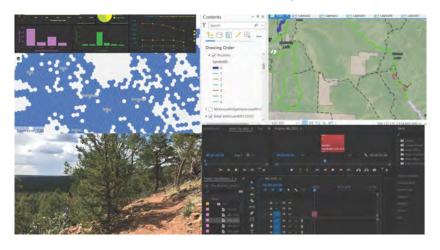

COG has restructured their office and one of the utmost importance is the Special Projects Office (SPO). The SPO serves the Northwest New Mexico region consisting of San Juan, McKinley, and Cibola counties including all municipal, rural, and tribal communities. This newly established Office will provide specialized skills and services that are not available or achievable in most communities in our region. This Office promotes data driven innovation and to develop programs that empower by sharing, communicating, and transferring knowledge to communities and the region.

The SPO would be a knowledge driver and center for the region and its communities. To that end, we envision promoting practices that advance adaptive management, improve communities, and reduce the efforts of filtering through informational material.

The SPO manager is tasked with the diversity of special projects that would entail data needs, storage, and utilizing multimedia sources. Currently the SPO is in the process of creating dashboards, interactive mapping, and updating US Census Designated Places. In addition, provide mapping services and multimedia services such as plotting maps, GPS surveying, film production, and varied formats. The SPO has an odd flowing range of tasks such as providing expertise towards:

- Infrastructure Capital Improvement Plans
- US Census Participant Statistical Area Program
- Zuni Mountain Trails and Conservation
- NM Community Data Collaborative Center for Health Innovation
- Trail of the Ancients Scenic Byway Corridor
- Environmental Systems Research Institute (ESRI)
 Geographic Information System (GIS) technology applications
- Film production
- Adobe Creative Cloud digital design applications
- Other unique projects that come to the COG's Special Projects Office

The SPO is knowledge based and in time will have functioning capacities in interactive web use, data analysis, infographics, mapping, and other multitudes of information to share with the region. The SPO Manager will carry out on behalf of the Northwest New Mexico Council of Governments (COG) in alignment with the organization vision to be the knowledge center for the region.

McKenzie Ridge Connector ~ Twin Springs Trail System Zuni Mountain Trails Project

Summer of 2022 Singletrack Trails, LLC, from Grand Junction, Colorado began trail construction north of McGaffey Lake but was then halted by the USFS Stage III Fire Restrictions. Monsoon season has lifted the fire restrictions and Singletrack has been able to reach the "horn or elbow" of McKenzie Ridge, elevation of approximately 8656'. Singletrack is preparing for construction on the ridge of McKenzie Ridge to Foster Canyon, then south of FR418 (unmaintained road). With terrain and potential weather the crew may have limited access into these areas. Although construction ought to go quickly due to large bedrock segments, slickrock. The future trail south of FR418 has reroutes and is still under USFS review for approval.

These proposed reroutes are designed for trail sustainability. The original trail layout plan, created over 10 years ago was approved for construction but ground truthing reveals very steep terrain that is not conducive to equestrians and mountain bikers. Forest Service experts will determine the proposed reroutes for approval or disapproval.

With a moist winter and spring season, US Forest Service pending approval of Task Order 3 has begun with Singletrack Trails, LLC. Singletrack is nearing Foster Canyon and a segment of the Continental Divide. Later this 2023 season south of Forest Road 418, are pending notice to proceed with Task Order 4 from USFS Mt. Taylor Ranger District, within

McKinley County. To be determined is the continuance of McKenzie Ridge Connector within the Twin Springs Trail System and proposed trailhead. Bluewater Creek Trail System would be east of the Twin Springs Trail System sometime to be built in the future. On another note the 24 Hour Enchanted Forest Bike Race had nearly 600 people register for the race. The race location was in the McGaffey and Hilso area trail systems at McGaffey Campground.

Visible from McKenzie Ridge are Mt. Powell, Mt. Taylor, Road 50, Haystack, Mt. Sedgwick, and portions of the Continental Divide. The McKenzie Ridge trail connector would dead end above Cottonwood Canyon but will continue, after design is determined and approved. This connector will continue above Cottonwood Canyon to the Rincon, to Peavine Canyon, and to the future Twin Springs Trailhead but will need future trail design work; this segment of trail is on both McKinley County and Cibola County.

Cibola County unbuilt trails of the Zuni Mountain Trail Project entail the Twin Springs, Bluewater, Ojo Redondo, Quartz Hill (partially built), and Limekiln Trail Systems. Trail designed for trail sustainability, proposed reroutes, await approval from the Forest Service. The Zuni Mountain Trails Project and Partners are continuously hopeful for these trail systems to be completed. Please enjoys these trails systems as that they are built for hikers, bikers, and horseback riders.

WATER & ENVIRONMENT OFFICE

Water Trust Board

COG provided technical assistance to member governments, including the City of Gallup and McKinley County, to submit grant applications for the Water Trust Fund, under the New Mexico Finance Authority. This is an annual grant program that provides funding for local/regional improvement and infrastructure projects, such as community centers, flood control, and water delivery systems.

For the recent 2023 Water Trust Board funding cycle, our region was awarded critical funding for local capital projects:

- The City of Gallup will receive \$10,800,000 for a new water well.
- The Catalpa Water Association will receive \$350,000 for project design.
- White Cliffs Mutual Domestic Water Users Association will receive \$1,685,419 for a new water storage tank and connecting lines.
- Ramah Water & Sanitation District was not awarded.

Water & Environment Office

COG is currently moving forward and gaining traction with establishing its first office that is primarily focused on water and environment priorities for our region, with Angelina Grey, Planner, heading this program. The goal of this program is to take our efforts and attention on small water systems and brownfields and enhance regional initiatives that can be catalytic to creating major milestones in historic partnerships and support networks that puts our region on the map, literally. Ms. Grey has been working on developing this program to be succinct and aligned with the structure and framework of the RTPO program.

COG/RCAC Partnership

This is year two of the COG & RCAC partnership that was made possible through an EPA Water Infrastructure Improvements for the Nation (WIIN) grant that was secured by the NM Environment Department. COG and RCAC will continue providing technical assistance and support through outreach activities with small water systems. The goal is to incorporate this support network through our entire region whether it be through direct services or with contractual services with the NWNMUA.

Water Leadership Institute

The Regional Water Planning Organization of the COG helped organize the Water Leadership Institute that gives small water systems the opportunity to receive training that is crucial to the safe management and operation of water and wastewater systems. COG partnered with the Rural Communities Assistance Partnership network to facilitate a series of training sessions. This is the first time our region has hosted a program specific to small water systems.

Funding for Water & Wastewater

All the federal funding that is allocated under the Bipartisan Infrastructure Law (BIL) is being funneled through state agencies and departments. For NM, the funding is directed to NMED's Drinking Water State Revolving Fund and the Clean Water State Revolving Fund. Both programs are currently accepting both pre-applications and applications on a quarterly basis.

- Competitive, based on MHI
- Initially offered as loans with 0.01% interest rates (of total project cost), with some potential availability of grants

For CWSRF, 100% grants are awarded to severely low-income communities* (must qualify through census data calculations for medium household income, unemployment rate, and poverty rate (all must be higher than the national data)

McKinley County Water

In the final months of 2022, the County's Water Regionalization Initiative made tremendous progress in the formation of a "Joint Powers Agreement Entity." This initiative is more than 17 years in the making and the County, with its working partners, has reached a major milestone in establishing this historic partnership.

Three small water systems that have agreed to merge and create the Northwest New Mexico Utility Authority (NWNMUA):

- Gamerco Water & Sanitation District
- Yahtahey Water & Sanitation District
- White Cliffs Mutual Domestic Water Users
 Association. One member of the current board
 of directors for each joining entity has been
 selected to also serve as the board of directors
 for NWNMUA.

On another note, the COG continues to facilitate the Regional Water Commons (RWC) program with bi-monthly meetings. The previous RWC meeting was held in November that covered capital outlay priorities and other funding

programs that are currently available through the NM Environment Department (NMED). The Clean Water State Revolving Fund (CWSRF) is for wastewater projects and the Drinking Water State Revolving Fund (DWSRF) is for water projects.

Additionally, COG and the Rural Community Assistance Corporation (RCAC) continue to provide technical assistance and outreach activities with regional small water system in both McKinley and Cibola Counties. In recollection, this partnership was established through the acquisition of the EPA WIIN grant more than a year ago. This is a 3-year work program that started in 2022 and will progress through 2024.

2022 Rural Water Summit

McKinley County recently held its second annual Rural Water Summit (RWS) in August, at the McKinley County Governance Center. COG organzied all the logistics and catered luncheon (Grandma's Grill, Laguna, NM) for the 30+ participants. The newly appointed NM State Engineer, Mike A. Hamman, delivered the keynote address. Hamman touched on key factors that impact the northwestern region's current, future water, and climate outlook. Other topics covered included groundwater depletion of NM's major sources of surface water (i.e., Lower Rio Grande, Rincon Aguifer, Mesilla Vally). A major goal for all communities to prepare for climate change driven impacts to water resources across the state. Now is the time to enhance stewardship, sustainabilty and equity.

ECONOMIC DEVELOPMENT OFFICE

Four Corners Rapid Response Team

The COG engaged Los Alamos National Lab as part of the Four Corners Rapid Response Team. Engagement is hoped to bring forth additional resources to the region. The Rapid Response Team is a federal effort aimed at providing technical assistance to the northwest New Mexico region to expand regional capacity to undertake economic transformation and diversification in light of recent coal-fired power plant and associated coal mines.

Ft. Wingate Feasibility Study

COG is managing Indian Affiliates who are tasked with development of an Economic Feasibility Study for a parcel located on lands formerly under the control of Ft. Wingate. This study will help determine options for development and provide associated infrastructure cost. Coordination with the Eastern Regional Business Development Office for the Navajo Nation is occurring as part of the project.

EDA AURO Director Visits NM

Jorge Ayala, Director of EDA - Austin Regional Office which oversees the State of New Mexico, made a visit to New Mexico to meet with the NewMARC organization; the New Mexico Association of Regional Councils, to which the Northwest New Mexico Council of Governments is a member.

The COG has invested considerable time and resources to cultivate a relationship with EDA-AURO which has produced significant investment into the region. It is hoped the partnership with EDA-AURO and Mr. Ayala can be leveraged for large transformative regional initiatives.

Industrial Workforce Program

Industrial Workforce Program (IWP) was developed for the purpose of training a career-ready workforce in the Greater Gallup region. The IWP initiative seeks to fill a shortfall in the community's capacity, readiness for economic

development, and to bridge the gap between the skills needed by local industrial employers and the actual skills represented in the community's workforce.

The IWP program emerged as an essential component of the economic development strategy for the Greater Gallup region, as reflected in Greater Gallup Economic Development Corporation's (GGEDC) interviews and ongoing communications with the area's key industrial employers under its Business Retention and Expansion (BR&E) program. Area employers consistently identified "workforce" as their top challenge and further bemoaned (a) the lack of local applicants with the employability and industrial trades skills needed for their industries and (b) the lack of accessible training programs and resources with the flexibility and responsiveness needed for their hiring cycles.

Funded by the US EDA, the IWP pilot project partnered with local employers to identify core skills and specific abilities, followed by building a responsive program, thus striving to provide a sustainable pipeline of work-ready applicants to fill current and future industrial jobs needed by the employers. This critical relationship with industrial employers was further embodied in the program's "Leadership Team" composed of representatives from local employers who worked with the GGEDC staff team to review, advise on, approve program policies, budgets, curricula, certification paths, training plans, and approaches aligned with the needs of industry.

The GGEDC proceeded to activate the IWP Leadership Team, identify and access appropriate funding resources, hire staff, design program, tailor NCCER curriculum and certification requirements to local labor needs, build inter-agency partnerships, put in place a trainee recruitment program, and initiate scheduling and implementation of training courses.

Economic Development Office

The Economic Development Office is tasked with the management of base economic development programs as well as special initiatives. The Economic Development Office works at a regional level, interfacing with local communities and their respective local economic development organizations to help expand local capacity to successfully implement projects.

Northwest New Mexico is a recognized by the US Economic Development Administration (US EDA) as a federal economic development district and the NWNMCOG is responsible for developing and maintaining a Comprehensive Economic Development Strategy (CEDS) on behalf of the region.

The CEDS serves as roadmap to help identify and prioritize economic development initiatives for the region including economic development projects and serves as a guide for US EDA to help prioritize federal investments, resources, and technical support. In 2024, the NWNMCOG is expected to begin the process of updating the CEDS which is in line with recommendations to update the document every 5 years.

The NWNMCOG maintains close communication and coordination with the US EDA as it seeks federal investments into the region to the benefit of local communities and economic development projects. Assistance to Coal Communities, Economic Adjustment and Public Works, VISTA Volunteers, and the Revolving Loan Fund are just a few of the US EDA programs successfully accessed by the NWNMCOG to support regional economic development initiatives.

Aztec Outdoor Recreation Project

The Aztec OR Project represents a special initiative for the economic development office, as funding is largely tied to a one-time appropriation, in this case, a legislative capital outlay appropriation. With the Aztec OR project, efforts are centered around the development of an outdoor recreation manufacturing facility in the City of Aztec which is designed to complement recent investments made by the city to the Aztec Motocross Park as well

as North Main intended to improve access to the Animas River. The NWNMCOG is providing technical assistance to the city to help complete project scoping while working with local outdoor recreation manufacturers to forge public-private partnerships to facilitate business expansion and job creation.

Revolving Loan Fund

NWNMCOG Revolving Loan Fund (RLF) was reestablished in 2021 with funding provided by the US EDA. The RLF is to improve access to capital for businesses and individuals in support of business, job creation including retention and expansion. The RLF program has available \$900,000 in capitalization and can make loans ranging from \$20,000 - \$100,000.

For FY22-23, with a focused concentration on San Juan County, the RLF had contact with approximately 103 companies in northwest New Mexico. Contact included direct one-to-one outreach including providing verbal overview of the RLF program and RLF marketing materials. Approximately 80% of businesses contacted were in San Juan County.

The NWNMCOG Board of Directors made the innovative decision to lower the interest rate on the RLF program to the lowest allowable under RLF rules and regulations. The resulting decision to set rates at Wall Street Journal Prime minus Four Points has been instrumental in driving interest in the program.

With assistance of the National Development Council (NDC), the RLF program has 7 projects under consideration all in various stages of financial review. All 7 projects are based in San Juan County, with an average funding request of \$98,000.

	Businesses	Prospects*
Cibola County	4	0
McKinley County	17	0
San Juan County	82	7
TOTAL	103	7

The RLF was featured in local publications including the Farmington Daily Times and the Durango Herald

REGIONAL TRANSPORTATION OFFICE

RTPO Program

Northwest Regional Transportation Planning Organization

There are seven (7) RTPO's in New Mexico; these organizations – typically part of regional Councils of Governments, help multi-county regions manage multimodal transportation planning, funding and project development. This includes pedestrian, bicycle, roadway, highway, bus, rail and airline infrastructure and services, as well as outdoor trail design, development and maintenance.

Our NWRTPO serves and has representatives from McKinley, San Juan and Cibola Counties, Cities of Gallup, Grants, and Village of Milan, and Native Tribes including Navajo Nation, Pueblo of Acoma, Pueblo of Laguna and Pueblo of Zuni, and Ramah Navajo.

The NWRTPO meets on a monthly basis to plan and report progress on multi-modal transportation development and maintenance. Many projects require multi-jurisdictional collaboration, as they may cross a number of different local, county, tribal, state and federal jurisdictions. RTPO's and MPO's (Metropolitan Planning Organization) work with our New Mexico Department of Transportation, to execute development based on local and regional priorities, and collaborate to find and secure funding for a variety of projects. The Farmington MPO in San Juan County serves the Cities of Farmington, Bloomfield, Aztec, and Kirtland.

Carbon Coal Road

Carbon Coal Road is providing access to the Industrial Park opportunities in the former Gamerco Mine area. This paved four-lane road extends from the intersection with US491 in Gamerco for 5.5 miles to where coal is still off-loading for transport to regional power plants.

The project in this area is to invite industry, including energy production along with potential for an inland port to involve warehousing for the exchange of cargo between rail and freight delivery to the broader Four-Corners multistate region.

I-40 Planning Grants

The NWRTPO submitted nine (9) I-40 Planning Projects, seeking funding for future development, as funding becomes available. Some of these projects could be locally driven, but because they intersect with Interstate 40, most of them will also involve NMDOT and federal oversight.

The proposed projects for I-40 from the Arizona State line almost to Albuquerque include:

- McKinley Autonomous Commercial & Mobility Complex
- McKinley Commercial Truck Testing Technology Corridor
- McKinley I-40 Prewitt Industrial Park Connectivity and Rail Crossing
- McKinley I-40 / NM371 / NM612 Interchange
- McKinley Williams Acres I-40 Noise Barrier,
- McKinley Supply Chain Accelerator
- Gallup I-40 / NM118 East and West Interchanges
- Milan I-40 / NM568 Sawmill Road Interchanges
- Milan I-40 / Horizon Blvd. Interchange.

NMDOT Transportation Project Fund (TPF)

In recent years, the State Legislature and NMDOT initiated a NM State fund for transportation projects, with no functional classification limits, and funding distributed based on justified local government priorities (Counties, Tribes, Communities and Special Districts).

The Transportation Project Fund from the State of New Mexico only requires a 5% local match and allows a match waiver to be requested.

The 2023 third round of TPF funding, our region was awarded \$19,747,334 for 10 projects – 2 from the Farmington MPO governments, and 8 projects from 8 of our NWRTPO member governments. This funding has doubled and at times almost tripled the amount of funding our NWRTPO region receives on a biennial basis for multi-modal transportation development.

NM State Planning & Research Funding Awards

For the 2023 NM State Planning and Research Fund, the NWRTPO was awarded \$250,000 (\$200,000 - state / \$50,000 - 20% local match) for the McKinley County Transportation Master Plan; and \$150,000 (\$120,000 - state / \$30,000 local match) for the Grants/Milan Comprehensive Transportation Safety Action Plan. This represents another \$400,000 in funding for transportation planning on behalf of McKinley County and the communities of Grants and Milan.

Technical Support and Data Management:

- <u>Trail Counters:</u> Carrie House invested considerable time this past quarter installing trail counters for our Zuni Mountains Recreational Trails project.
- TOA Byway CMP Update: Carrie also commenced some prep work for our 2024 update to the Trail of the Ancients National Scenic Byway - Corridor Management Plan.

Project Development & Monitoring:

- April 14 PFF Deadline: Extensive work with RTPO members to get their PFF's submitted by this deadline. Had to allow an extension for some tribal members. After the April 14 meeting – worked with our members for PFF corrections. Extensive follow up with DOT District 6 to complete PFF approvals so we can move forward with PPF's.
- <u>City of Grants MAP Project:</u> Support of the City of Grants' Municipal Arterial Project funding application.
- <u>Gallup Transportation Master Plan:</u> Participation for this plan on May 17.
- Funding & Training: Ongoing funding and training opportunities to our RTPO members. Ramah Navajo received \$21,424,232.00 for 6.5 miles of reconstruction to BIA Rt. 125, includes bike and pedestrian infrastructure.

GRANT WRITING PROGRAM

DFA Capacity Building Appropriation

During the 2022 Legislative session, legislators throughout New Mexico supported the need to address local challenges related to grant writing and grant management both as a reaction to current grant programs and in anticipation of incoming large federal investment opportunities. The result of legislative efforts was an appropriation of \$1,500,000 to the Department of Finance and Administration to implement the Capacity Building Program.

The COG quickly developed an approach that would provide the most efficient and effective use of funds as they need to be spent and closed by June 2023. What resulted was an invitation to member governments to participate in the following scope-of-services:

- 1. Assist local governments in defining and prioritizing projects.
- 2. Assist local governments to match funding opportunities with projects to create comprehensive funding strategies.
- 3. Hire multiple contract grant writers who will focus on writing grant applications that can be used when the grant opens and applications that can be recycled for other projects in the future.
- 4. Identification of technical documents needed which require complex technical skills and data sets to develop.
- 5. Contracts with engineering or technical firms to provide technical documentation.

Ultimately, the Village of Milan, City of Grants, City of Gallup, Cibola County, and McKinley bought into the program and were successful in securing \$50,000 each to roll into the COG grant writing program.

With 1 year to implement, the COG quickly established the program and has since task ordered the following applications and grant guides:

Village of Milan

- Milan Wastewater Improvement Project completed Clean Water Revolving Loan Fund application.
- 2. Stanley Bridge & Road Improvements completed and submitted a Transportation Project Fund application.
- 3. Project Feasibility Form (PFF) and Project Prospectus Form (PPF) Applications completed and submitted including Tietjen Street and required documentation e.g. cost estimates.
- 4. Elkins Road (CR-24) Application guide created to Safe Streets For All Program
- Milan Industrial Park Improvements

 State LEDA Application update this application but not the priority in short-term.
 - b. EDA Application updated and ready to submit this application.
 - c. Other strategies and applications defined for the Village.

City of Grants

- 1. Grants City-wide Water and Wastewater Project completed both applications:
- a.Drinking Water Revolving Loan Fund application
- b.Clean Water Revolving Loan Fund application
- 2. Gunderson Road completed and submitted a Transportation Project Fund application(s) based on City direction.
- 3. Project Feasibility Form (PFF) and Project Prospectus Form (PPF) Applications completed and submitted including required documentation e.g. cost estimates.
- 4. Lobo Canyon Road (NM547) Improvement Project & Multi-purpose Path completed the update 2018 Federal Lands Access Program application.
- 5. Sakelares Boulevard
- a Application guide completed to Safe Streets For All Program and RURAL Program

City of Gallup

- Allison Corridor Developed funding strategies related to Allison Corridor Part A and drafted an application for about \$12M to the Reconnecting Communities Program.
- 2. Route 66 Downtown Road Diet Continued to support the Route 66 Downtown Road Diet Project and developed a guide for the Safe Street for All program.
- 3. 2nd & 3rd Streets Rail Crossings Investigated gap financing needed and
 funding options for 2nd & 3rd Pedestrian
 Safety Crossings including Railroad
 Elimination Program but this project did not
 qualify.

Cibola County

- CR5 Moquino Bridge Support of a Transportation Project Fund Application for County Road 5 Moquino Llano Bridge and Road Rehabilitation Project.
- 2. Broadband Support of a USDA Broadband RECONNECT led by Continental Divide Cooperative.
- Grants Support Funding through this contract was also used to support several grant applications for the City of Grants and Village of Milan.
- 4. Acoma Support Support and research of several targets for the Mesa Hill Bridge Project including support from Burlington Northern Santa Fe (BNSF) railway.
- 5. Brownfields funding support for several projects in Cibola County including Acomita Day School.
- 6. Railroad Elimination Program Created guides for completing and competing for a Railroad Elimination Program and the Bridge Investment Program. A draft application is being finalized for several railroad crossings sites in Cibola County.

McKinley County

- CR43 Superman Canyon Bridge #1 -Support of a Transportation Project Fund Application for County on Superman Canyon Bridge.
- 2. Rail Crossings Support and research of several targets for several crossings including support from Burlington Northern Santa Fe (BNSF) railway.
- 3. EV Charging Stations Completed and

- submitted applications for \$6M for three charging stations under the Community Fueling Infrastructure (CFI) grant programs.
- 4. Brownfields funding support for several projects in McKinley County including Prewitt Industrial Park and several County ledprojects.
- 5. Railroad Crossing Elimination Created guides for completing and competing for a Railroad Elimination Program and the Bridge Investment Program. A draft application is being finalized for several railroad crossings site in McKinley County.
- 6. Bridges Supported and reviewed the County's application for 10 bridge construction projects through the Bridge Investment Program.
- 7. Carbon Coal South Exploring options for funding the Carbon Coal Road South project.

Overall, the initial year of the COG's grant writing program has produced significant benefit to participating members. Not only did grant applications get developed, but new relationships were also formed, data was collected, knowledge was acquired, and money was saved.

During the 2023 Legislative Session, the legislature once again appropriated funding for the continuation of this grant program through the DFA and once again, the COG was swift to promote our successful first year run of our grant writing program. The following member governments were successful in securing \$30,000 from the DFA Capacity Building funding to continue and/or participate in the COG's program: Village of Milan, City of Grants, City of Gallup, City of Aztec, City of Bloomfield, Cibola County and McKinley County.

The COG will seek intergovernmental services agreements with participating members and will set up consultations to identify projects and grants programs and will soon deploy resources to complete applications. We look forward to another year of grant writing success.

Evan Williams

Director's Note

Investment Continues in the Four Corners

We have seen a feverous start to Fiscal Year 2024, as the Northwest NM COG team continues to lead the field in attracting investments from various State and Federal sources including Transportation Project Fund, Water Trust Board, Department of Finance & Administration (DFA) Programs, Economic Development Administration, and Community Development Block Grant (CDBG).

This quarter included some continued investment by the US Economic Development Administration:

- 1. Milan Industrial Park The Village of Milan has been awarded \$2.7M for roadway infrastructure investments to help attract business to the community's industrial park. This grant requires a local match of \$684,750 that was raised with \$600,000 in DFA's Federal Matching Fund Program, and the remainder of \$84,750 from Cibola Communities Economic Development Foundation and Northwest New Mexico Council of Governments via Tri-State Generation and Transmission Association's Community Fund.
- 2. San Juan College San Juan College has been selected to continue another three-year term as a designated University Center. The College will receive \$130,000 each year to advance the Harvest Kitchen and Food Hub.
- 3. Economic Development Organizations
 Capacity Grant the Northwest New
 Mexico Council of Governments was
 awarded \$621,000 for the Supercharging
 Diversification, Equity, and Resiliency in
 Northwest New Mexico. This funding
 along with \$155,250 in matching dollars
 will be aimed to re-invest in area economic
 development organization (EDOs) to do
 more with more in terms of funding and
 three-years of committed financial support
 to grow their capacity.

Evan Williams, CEcD
Executive Director

Also, the COG has been recognized for its work based on several National Awards from National Association of Development Organizations (NADO):

Northwest New Mexico Council of Governments - Prewitt / Milan Transportation Master Plan

Northwest New Mexico Council of Governments - Water Regionalization & Water Commons Eastern Plains Council of Governments - Mental Health Program

Water Planning Office

Water Leadership Institute

The Regional Water Planning Organization (RWPO) partnered with the Rural Communities Assistance Corporation and its sister organization, the Rural Communities Assistance Partnership (RCAP) in organizing and facilitating summer leadership classes for small water systems in McKinley and Cibola Counties.

Five area small water systems participated in these leadership classes that were held between June and August. The last two sessions were held in August. Participants were also invited to attend and participated in the 2023 Rural Water Summit to gain more information and to take part in their graduation ceremony.

There is certainly an opportunity to continue to provide this training opportunity for small water systems in our region in the future.

Rural Water Summit

McKinley County, the COG, RWPO and RCAC worked together to organize and facilitate the third annual water summit that was held on August 31, 2023. This event attracted the largest attendance to date, with Representative Harry Garcia (District 69) delivering the welcome address. The theme of the summit was focused on regional collaboration and the agenda highlighted efforts and planning activities within the past year.

Water Trust Board

COG is currently assisting two member governments and a special district with the completion and submission of the 2024 Water Trust Board grant applications. The application cycle started with the submission of the Notice of Intent in August and the Project Applications were submitted on September 15, 2023. The WTB administrators are currently reviewing the first stage of the application process, and applicants will have an opportunity to present their respective projects at one of the regular WTB board meetings.

Special Projects Office

McKenzie Ridge Connector – Twin Springs Trail System

Trail construction on McKenzie Ridge Connector began last year, this year, and is expected to continue into next year. This connector trail connects from Sawmill trail near McGaffey Lake, onto McKenzie Ridge proper at an elevation of approximately 8656 ft. and nearing above Cottonwood Canyon. This fluctuating 23-mile trail has required approved rerouting by the US Forest Service, Cibola National Forest. Approved rerouting for sustainability, cultural, and biological concerns have interim developments with Mt. Taylor Ranger District. As a corollary, appropriate planning and management of trails is becoming increasingly important to the recreational use of the Zuni Mountains Trail systems. McKenzie's typical vegetation is an openly spaced ponderosa pine forest with pockets of oak and other brush. Lower areas with pinyon-juniper forest. The terrain is dominated by sandstone rock formations. The Continental Divide line curves through near Foster Canyon and Twin Springs.

McKenzie Ridge Connector will eventually continue into Cibola County, the Rincon, Peavine Canyon, and near Twin Springs where the future Twin Springs Trailhead will be installed. McKenzie Ridge Connector, Twin Springs Trail system, also connects through Lookout Mountain Rim, nearing Sawyer Creek, and to the future Bluewater Creek Trail system. The Twin Springs trail, in Cibola County, is an approximately 30 miles. After the completion of McKenzie Ridge Connector - Twin Springs Trail system is the other approximate 80 miles of future construction of trails left to reach the Quartz Hill Trail system near the Village of Milan and Grants. The approximate 205-mile Zuni Mountain Trail Project has gained funding from the New Mexico's Department of Transportation Recreational Trails Program (RTP) and will require additional funding from numerous sources to bring the outdoor recreation of the Zuni Mountains to full fruition.

Special Projects Office continued...

Gallup Youth Conservation Corps

To develop, expand, and improve the City of Gallup's Red Rock Trail System with McKinley County support of the expand walkability and add fitness opportunities throughout the city. The Red Rock Trail System is part of the Gallup Urban Network. This project will provide additional access and use to the park, beautify urban areas, and reinforce the "Keep New Mexico Beautiful" and "New Mexico True" Campaign. Red Rock Park was formerly a New Mexico State Park and is the only park of its kind in McKinley County with over 250,000 visitations a year. The Red Rock Trail System consisting of Pyramid Rock trail and Church Rock trail is a regional tourism asset, local quality of life asset, a recreation opportunity, and offers some of New Mexico's hiking experiences.

This project is consistent with the Gallup Growth Management Master Plan's Trails and Open Space element.

The NWNMCOG has assisted the member government, City of Gallup's Youth Conservation Corp (Gallup YCC) program with the Request for Proposal grant through the New Mexico Youth Conservation Corps Commission of the New Mexico Energy, Minerals and Natural Resources Department (EMNRD). This includes collaboration with McKinley County, Mt. Taylor Ranger District, US Forest Service, Bureau of Land Management, and other partners who are involved with trails and conservation efforts in the Gallup surrounding areas such as the Red Rock Park, Zuni Mountains, High Desert, Hogbacks, and the Ramah Trail System.

The Gallup YCC program builds on a track record of delivering a highly successful youth workforce program that delivers first-class and worthwhile projects for the community. Projects are aligned with advancing health and economic targets, such as trails, community garden, beautification, conservation, and built environment projects. Work plans also restore, recycle, and regenerate open space for habitat, safe play, community gardens, and recreation areas. Gallup YCC and these projects are linked together with the intentional focus of bettering our socioeconomics in terms of poverty, unemployment, obesity, diabetes, and suicide. Many of which are ranked as some of the highest

in the States and Nation. The Gallup YCC members are well respected members of the community, and many depend on their services. Gallup YCC is one of the most successful programs in building life and job skills, furthering education, empowerment, instilling pride, and conservation ethics, providing an equal employment opportunity.

In addition, the New Mexico Youth Conservation Corps funds youth-centered projects and career development. The northwest region of the City of Aztec youth has assisted in the development of Tiger Park. The City of Bloomfield youth has worked on clearing invasive species to provide visibility to the waters of the San Juan River. The Conservation Legacy – Acoma youth participated in revitalizing traditional food systems and preparing for a career in farming and food production. The Conservation Legacy – Zuni youth worked with local Zuni government and religious leaders to assist with protecting

cultural areas, constructing trails, stabilizing walls and more. Local governments, tribes, and non-profits are eligible to apply for funding. https://www.emnrd.nm.gov/about-ycc/

Economic Development Office

CEDS Kickoff

With a room full of local, state, and federal officials, the 2023 COG Annual Luncheon served as the forum for the NWNMCOG to announce it will launch a region wide effort to update and generate a new Comprehensive Economic Development Strategy (CEDS).

The CEDS is the economic development blueprint for the region. The CEDS was last updated in 2021 and much has happened in the region over the past three years. As the region continues to emerge from the pandemic, efforts are underway to grow and strengthen the regional economy. In addition to maintaining a document which captures monitors the economic health of the region, there are new federal requirements related to the CEDS which only helps to serve as a reinforcement for the update. New elements in the CEDS process include climate resilience, equity, workforce development, and broadband. With local and federal changes, communities are excited and ready to engage, eager to chart a new economic development path.

The CEDS process will roll out through 2024, with a targeted completion date of 2025. A community rich engagement process will be undertaken to include targeted outreach in each respective county along with coordinated tribal and pueblo outreach. The goal is to provide an all-inclusive process to generate ideas and recommendations which respond to the needs and challenges of the region. Efforts related to data research and the formation of a CEDS Committee to help drive and implement the process are underway.

With the 2025 CEDS, there is a desire to develop a digital CEDS, an online document and website where stakeholders can access information regarding the CEDS and track its implementation.

RLF Update

Marketing outreach with the Revolving Loan Fund remains in full swing. Efforts for this period included targeted outreach in the downtown areas of the region's largest metro centers including Farmington, Gallup, and Grants. For the period, the RLF conducted outreach with approximately

98 businesses in the region, which included outreach with 29 businesses in Cibola County, 33 businesses in McKinley County, and 36 businesses in San Juan County. To date, the RLF is working with three (3) businesses on five (5) potential loans with a cumulative value of \$350,000, representing well of 1/3 of the capital allocation available.

In addition, the RLF continues bi-weekly calls with the National Development Council (NDC) regarding applicant review. Further, the National Development Council has assisted in projecteering, joining several calls with applicant businesses to review proposed needs and uses of funds.

Projects	County	Need	Amount
Project 1	San Juan	PWC	\$75,000
Project 1	San Juan	M&E	\$25,000
Project 2	San Juan	PWC	\$100,000
Project 3	McKinley	Debt Refinance	\$100,000
Project 3	McKinley	PWC	\$50,000
		Total	\$350,000

EDA Milan - Federal Match Grant

The Village of Milan will get \$2.7 million in federal funding for roadway infrastructure improvements to help attract businesses to the community's industrial park. The industrial park is part of a long-term plan to move Milan from a boom-and-bust economy to a robust economy. The U.S. Department of Commerce grant will be used to develop Milan's industrial park and requires \$684,750 in matching funds from the village. The investment is expected to create 54 jobs and generate \$3.2 million in private investment, according to a Department of Commerce news release. The grant was developed by the NWNMCOG in partnership with the Village of Milan and stakeholders.

Economic Development Office continued...

The industrial park land was acquired by the village in 2003 and previously was a farm. Water and wastewater utilities already are built out to the park and would have to be extended to individual sites by developers. The planned industrial park encompasses 912 acres and has several shovel-ready sites but no roads leading to it.

"Milan from its initial incorporation as a municipality was the carrot capital of the world, and the day that they found uranium, it became the uranium capital of the world," Williams said, "so they've gone through these boom-and-bust cycles, as has the region." Coal power plants and coal mining have been the latest boom-and-bust industries to upend jobs in the region. The coal-powered Escalante Power Plant in nearby Prewitt closed in 2021, leaving some Milan and Grants area residents unemployed. About 90% of the power plant workers were Cibola County

residents, and the area lost 105 jobs, Williams said, leaving some workers in the community underemployed with skillsets beyond the existing job market. "The tax base of Cibola County, through these boom-and-bust periods, you've seen periods of investment, then disinvestment," Williams said. "So, what we talk about is trying to move the economy from a boom-bust to robust, and part of that robust strategy is to diversify with logistics, light manufacturing, value added agriculture — things that fit with the assets that are in the Cibola County area."

The industrial park site already has access to Interstate 40, the BNSF Southern Transcon railroad, and the Grants-Milan airport. The new funding will add roads to the site, which could be the key to enticing new industries. The project is expected to be completed in 2025.

Transportation Planning Office

RTIPR Update

Out of a total of 82 PFF's (project feasibility forms) submitted, 65 were approved and authorized by DOT Districts 5 and 6 to move forward with PPF's (project prospectus forms). This includes 9 projects for Cibola County, 9 projects for McKinley County, 9 projects for City of Gallup, 11 projects for City of Grants, 7 projects for Village of Milan, 9 projects for Navajo Nation, 5 projects for Pueblo of Acoma, 2 projects for Pueblo of Laguna, and 4 projects for Ramah Navajo. COG RTPO staff have asked our nine (9) participating member governments to identify their #1 priority roadway and NM Transportation Project Fund projects, for prioritization in our forthcoming 2024 RTIPR. All other project categories will not be prioritized and simply present equal value for funding. Because Navajo Nation represents a number of communities and districts, they do not have to prioritize projects.

I-40 Planning Grants

According to Parametrix Engineering, I-40 accommodates around 10,000 freight trucks every 24 hour day, making it one of the busiest corridors in our nation. 80 to 90% of freight carriers simply travel thru our state carrying international freight to our national destinations from the California ports, or our freight being sold to other nations, to the California shipping ports. Due to the heavy traffic on I-40 our state, supported by federal sources is considering improvements to I-40 including adding lanes, safety enhancements, interchange and drainage improvements, pavement improvements, improving frontage roads, and ITS (Intelligent Transportation Systems) improvements. Our region is requesting a total of \$18,650,000 in funding for the following projects: Milan: a) I-40 / NM568 – Sawmill Road interchange, b) I-40 / Horizon Blvd. interchange phase 1A/B/C. Gallup: a) I-40 / NM118 East / West Interchanges phase 1A/B/C, b) Gallup Trade Port. McKinley County: a) I-4o/NM371/NM612 Interchange Reconfiguration, b) I-40 Prewitt Industrial Park Connectivity and Rail Crossing, c) Williams Acres I-40 Noise Barrier, d) Autonomous Trucking Complex, e) Commercial Truck Testing Corridor, and f) Supply Chain Accelerator.

McKinley Transportation Master Plan

Bohannan Huston received a notice to proceed for this project dated July 24, 2023. The engineering firm is reviewing the scope of work and will commence it's first meeting with COG and McKinley stakeholders some time in October. The scope of work will include a) work plan and cost proposal, b) technical products, c) final plans and Safe Streets for All self certification. McKinley County has major roadway, bridge, freight and rail improvements needed to support economic opportunities, including alternative fuel and EV charging stations. Address county bridge issues, integrate the Gallup Transportation Master Plan, connect with the 4CITE and Prewitt/Milan Transportation Master Plan and integrate EV charging and alternative fuel stations. Create an autonomous vehicle and mobility testing center, super truck center, and potential inland port.

Transportation Planning Office continued...

The scope of work will include engaging multi-jurisdictional lands and representatives within the county; and gathering land use, environmental, population and socio-economic data for planning. Analyze current and projected traffic, freight and rail conditions for consideration around land use and transportation system impact. Consider road & rail infrastructure for inland port and anticipated growth. Engage cross-jurisdictional agreements around transportation infrastructure within different land jurisdictions. Engage a public and stakeholder engagement process including supporting agencies. This is a condensed scope of work, as the actual proposed scope of work is broader with more detail on specific actions.

Grants / Milan Transportation Safety Action Plan

Wilson & Co. received a notice to proceed for this project dated July 24, 2023. Wilson & Co. responded providing information on anticipated staffing, costs, and work tasks including: a) finalize kick off meeting, b) preliminary data collection & analysis, c) develop local transportation safety plan vision & goals, d) ID safety emphasis areas, priority corridors and potential countermeasures and needs, e) public meeting #1, f) prepare implementation plan, g) public meeting #2, and h) draft & final report.

The condensed scope of work includes a) establish a leadership team, b) develop a public engagement plan, c) review existing plans, d) collect & analyze safety data, e) use a multimodal approach, f) set measures and targets, g) prioritize countermeasures, h) prepare and implement a safety plan. Beyond this provide a plan implementation and update process; and inform community members and stakeholders on vision, design, costs and anticipated construction. Apply for SS4A and Railroad Crossing Elimination funding programs.

2024 Transportation Project Fund Awards

In FY23, the COG supported the submission of numerous applications to the NMDOT Transportation Project Fund. In August, the COG was notified of approved projects totaling \$8,014,493.51. The following are the awarded projects for COG members and affiliates:

Entity	Project	State Share	Local Share
Cibola County	CR5 - Moquino Bridge	\$1,900,000	\$100,000
Village of Milan	Stanley Avenue Bridge	\$3,000,000	Waiver
City of Gallup	E. Nizhoni Boulevard Phase IV	\$1,909,500	\$100,500
Ramah Navajo	NM53/BIA125 Intersection	\$729,993.51	\$38,420.71
Burnham Chapter	N5/NM371 Road Safety Audit	\$475,000	\$25,000
City of Bloomfield	Bergin Lane Reconstruction	\$95,000	\$5,000
San Juan County	CR350 Resurfacing	\$1,812,600	\$95,400
	Total	\$9,922,093.51	\$364,320.71

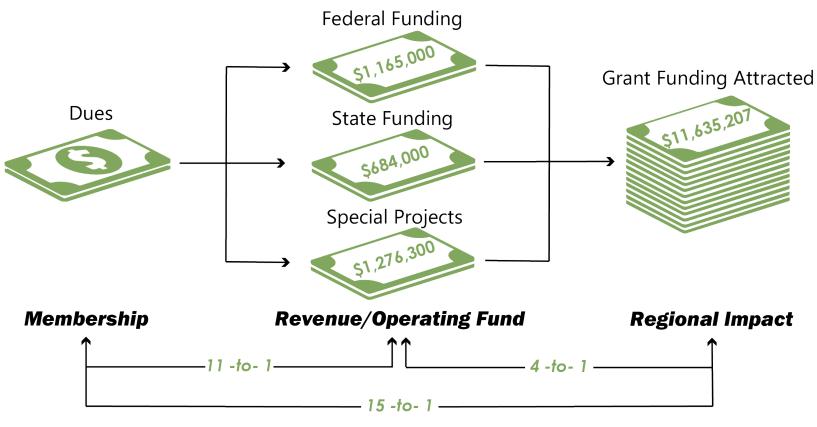

Regional Investment - COG Performance Review

Since taking over the helm as Executive Director, Mr. Williams has worked with his staff to conduct annual return on investment reports to member governments who financially contribute to the COG. These reports include highlights of accomplishments and a monetary return on investment. At the end of each quarter and the fiscal year, each member government's return on investment is incorporated into a regional recap to help the COG showcase our value to the region.

At the beginning of the fiscal year, the COG planning team huddled up to identify and set the Regional Return on Investment Goal for the year. With numerous sources available and a large list of infrastructure and planning projects already assembled by our regional communities, the COG, based on current and anticipated work, set the FY24 Return on Investment goal at \$100M. This goal represents a 25% increase from the previous year's goal of \$75M.

Below is our first quarter Return on Investment for Fiscal Year 2024:

Return on Investment Q1 - FY2024

Northwest New Mexico Council of Governments

Board Meeting Calendar | Fiscal Year 2024

QUARTERLY BOARD MEETINGS

DATE	TIME	LOCATION
August 2, 2023	Board Meeting: 10AM – 12PM	San Juan Area (TBD)
	Luncheon: 12 – 2PM	
October 18, 2023	10AM – 1PM	Milan Village Hall
		Milan, NM
January 17, 2024	10AM – 1PM	McKinley Area – McKinley County
		Downtown Training Center
April 17, 2024	10AM – 1PM	San Juan Area (TBD)
August 7, 2024	Board Meeting: 10AM – 12PM	Cibola Area (TBD)
	Luncheon: 12 – 2PM	Milan, NM

NOTES:

- (1) The Board of Directors of the Northwest New Mexico Council of Governments generally meets on the third Wednesday one month after the quarter ends (July, October, January, and April) at 10AM.
- (2) Executive Committee meets an hour prior to the Board Meeting.
- (3) Meeting Business is typically scheduled for two hours with lunch after.
- (4) COG will continue to offer a hybrid meeting with the ability to participate inperson or virtual.

ANNUAL LUNCHEONS: 2023 (51st): San Juan Area 2024 (52nd): Cibola Area;

2025 (53rd): McKinley Area

OTHER ANNUAL EVENTS, TRAININGS, & CONFERENCES

DATE	EVENT	LOCATION
May 3-5, 2023	SWREDA Annual Conference	New Orleans, LA
November 7-10, 2023	NADO Annual Conference	Cleveland, OH

NOTES:

- (1) The COG does encourage and welcome Board members to travel and participate to these conferences to understand what regional development organizations (RDO's) are doing throughout the country.
- (2) Typically, travel is worked out through and reimbursed via your local governments and COG handles registration.

NM Legislative Session 2024: January 16 – February 15

Updated: 10/17/2023
